Following it came the result of the two labor leaders, called by Samuel Gompers, of the American Federation of Labor. The strike leaders then looked for a settlement. The fallure of their mode of settlement leaves them only unconditional surrender or a fight to the bitter end. They choose the latter and claim that the strike is on as strong as ever, in spite of what the railway managers say. They claim to be able to make it still more effective here and declare that today's action of the managers will solidify their men who are out and send out many

The officers and directors of the American Railway Union held a special executive meeting at their headquarters. Chlich's ing a proposition to the railroad managers looking to calling off the great strike.

They agreed to call the strike off if the managers would give the strikers their former positions except those who have een convicted of crime. The proposition in full is as follows:

"To the Railway Managers: The existing ticubles, growing out of the Pullman strike, having assumed continental proportions, and there being no indication of relief from the widespread business demoralization and distress incident thereto, the railway employes, through the board of directors of the American Railway Union, respectfully make this proposition as the basis of settiement: "They agree to return to work in a body

The association was not in session, roads is inspired by a purpose to subserve omparatively unimportant, in its inception, has extended in every direction until it now involves not only every public interest, but the peace, security and prosperity of our common ocuntry. The contest has waged fiercely. It has extended far beyond the limits of interest originally involved, and has laid hold of a vast number of industries and enterprises in no wise responsible for the differences and disagreements that led to the trouble. Factory, mill, mine and shop have been silenced. Widespread demoraitzation has swayed the interests and multiplied thousands of innocent people with the suggestion President Cleveland | are suffering. The common welfare is seriously menaced. The public peace and tranquillity are perilled. Great apprehension of the future prevails.

"This being true-and the statement will not be controverted-we consider it to be our duty as citizens, and as men to make an extraordinary effort to end the existing strike and avert approaching calamities whose shadows are even now upon us. If ended now, the contest, herever serious in its consequences, will not have been in vain: Sacrifices have been made, but they will have their compensation. Indeed, if lessons shall be taught by experience the troubles now so widely deplored will prove a blessing of inestimable value in the

months and years to come. "The differences that led up to the present complications need not now be discussed At this supreme juncture every consideration of duty and patriotism demands that a remedy for existing troubles be found and applied. The employes propose to do their part by meeting their employers half way. Let it be stated that they do not impos any condition of settlement except that they be restored to their former position. They do not ask recognition of their organization

or of any organization. "Believing this proposition to be fair reasonable and just, it is respectfully submitted with the belief that its acceptance will result in the prompt resumption traffic, the revival of indusry and the restoration of peace and order. Respectfully,

The Roads Bave Grievances. Knowing hat the General Managers' As sociation would not receive any deputation from the American Railway Union, especially the officers who have been most active in the struggle for supremacy over the railroads, it was lecided to have President Debs and Vice President Howard to go to Mayor Hopkins with the above proposition and ask his good services in presenting the condition of settlement to the railway man

PHELAN GIVEN SIX MONTHS. One of Deba's Agents Sentenced to

cinnati, July 13.-Judge W. R. Taft, of the United States court, delivered his decision today in the case of F. W. Phelan, charged with contempt of court in impeding and obstructing the receiver of the Cincinnati Southern road, appointed by the court in the management and operation of his road, by directing and inciting the employes to leave his employ, and by interfering with the business of other roads with which the Southern road has business.

The courtroom was crowded and large numbers were in the corridors. Many deputy marshals were in and about the court room, but their presence was not needed, as the utmost decorum was observed.

The decision was very long, requiring a

full hour to read. The judge reviewed at great length the testimony which he declared, showed unmistakably that Phelar came here as the agent of and co-worker with Debs to institute and direct a boycott, determined on by the convention of the American Railway Union to force the railroads to break their contracts with the latter company to treat with its employes, who, it appears, are not eligible to membership in the American Railway Union. Phelan's denial of personal agency had no weight with the court, owing to the evasive and flippant character of his testimony and the telegrams passing between him and Debs, as well as his public utterances. He knew the Cincinnati Southern road was in the hands of a receiver and yet his first efforts were directed against it.

The court found that he was the active agent here in an unlawful conspiracy with Debs and others to paralyze the business of the United, States, or in other words, to starve the nation in order to force an employer to ferms.

held that to undertake to force a break of contracts was an unlawful conspiracy. Moreover, the whole plan was a boycott which had been declared by the states, except Minnesota, to be unlawful.

The court plainly recognized the right of laborers to unite and even to combine their unions and appoint leaders, for the purpose of obtaining a better price for their labor. They were warranted in striking, ie. leaving their employers in a body to better their own interest, but there was no warrant in law for a boycott.

The judge having found Phelan guilty, as charged, said in reference to the sentence that it was the intention of the court to enforce obedience to its order. To do otherwise would court anarchy. The penalty for contempt, aggravated as this was by a renewal of the contempt after warning. with the orders of the court.

The sentence was confinement for six months in the Warren county jail at Leb-anon, O., and the marshal was directed to immediately execute the order of the court

READ THE RIOT ACT. Governor Stone Gave the Strikers

Some Plain Talk. Jackson, Miss., July 13 .- (Special.)-The Meridian strikers paraded the streets with banners and brass bands, met incoming and outgoing trains, and menaced nonunion employes. Governor Stone accepted as he entered their hall the door was shut and non-striking citizens were refused admittance. The governor told them that people who wanted to work had as much right to work as strikers had to quit work. The governor recognized the rights of labor, but the law was paramount, and must be upheld at whatever cost. Violence would not be tolerated. If the local authorities were impotent to protect life and guard, and, if this was not sufficient he would ask the president for troops. Adjutant General Henry left for Meridian to

Which Have Been Held at the White House on the Strike Situation. Washington, July 13 .- The white house onference, which has been a feature of the strike every night during the past two weeks, has practically ended.

This evening at 9 o'clock, when the president returned from his customary drive with Secretary Lamont, none of the members of his cabinent were waiting for him and it was announced that none were expected, as little or no news requiring the perted, as netter of news anticipated, the main strike being considered virtually at an end. General Schofield spent ten minutes with the president, but had no information of note to communicate, and about 10:30 o'clock Postmaster General Bissell called to say that reports received today showed that the United States mails were being transmitted without delay in all parts of

the country.
The president has been somewhat annoved by the persistent attempts, in some quarters, to make it appear that he had appointed an arbitration board at the request of the strike leaders. Nothing is further from the truth, the commission which he has agreed to appoint eventually, the strike on the railroads which led to his

proclamation.

The investigation committee, when organized, cannot enter at all into the differ-ences between the Pullman company and its employes. It will confine its work exclusively to the Debs American Railway Union and the Railway General Managers Association. The president has been com pelled to explain this to several statesmen who mentioned arbitration to him today, tel'ing them very positively that no arbi tration was contemplated in his assurance to the committee that called upon him.

To Shift the Responsibility. The compromise proposition of the railroad organizations to the General Managers' Association was agreed to before 10 o'clock a. m., and the managers of the strike were congratulating themselves on the shrewd move they had made, harmon izing with the views set forth by President Cleveland as a condition precedent to the appointment of an investigating commission to decide the question at issue between the Pullman company and the former employes. The general opinion was that a refusal to accept the one condition imposed by the American Railway Union on railway managers would shift all the responsibility for the consequences on their shoulders, so that the suffering public would have to make their appeals and comof the railway and other national labor organizations, if the strike became more

Their Trump Card.

The offer of settlement was regarded as the playing of the American Railway Union's last trump card, especially as it centained that practical admission that widespread distress and threatened calamity of a worse character demanded that the strike should be declared off in order to restore peace and commercial activity in all parts of the country.

The determination of President Cleveland to appoint an arbitration commission also had much to do with the decision of the American Railway Union board to submit a proposition to the railroad managers which would contain the only position they were bound in honor and duty to the sirikers to impose. President Debs and his colleagues realized this morning when they read the dispatches from Washington that if the investigating commission, with power to arbitrate, was appointed and came to Chicago it would not take that body long to determine that the railroad strikers having no grievance directly against their employers, should return to work at once if the railway managers would take them back. The proposition anticipated the con dition which President Cleveland should be imposed before the investigating com mission was sent to Chicago.

Sovereign Threatens a Strike. Every American Railway Union man Knights of Labor and Federation of Labor leaders spoken to at headquarters today declared that the refusal of the railway managers to restore the strikers to their positions, except those convicted of crime would be the signal for the waging of a relentless war on the corporations, compared with which the present strike would

be lame. General Master Workman Sovereign and the other members of the executive committee of the Knights of Labor had a conference this afternoon at Ulrich's hall with Mr. Debs and the executive board of the American Railway Union. The subject of the discussion was that of ordering a strike of all the knights in the United States. No definite action was taken by the execu tive board of the Knights of Labor and the conference with the American Railway at 10 o'clock. Mr. Sovereign said to the reporter:

to the railroad managers by the railway union is rejected, the Kignts of Labor will take up this fight with renewed power and determination to bring the aggregation of capital to our terms. We will consider that we, just as much as the American Railway Union and the Pullman strikers, are fighting for the very existence of organized la-bor and living wages. This fight has not reacted its zenith yet."

The senator did not arrive until the afternoon, and Colonel Oates spoke first. His speech was comprehensive. It lasted three hours and was in every way consistent with his former utterances. It is pronounced his best effort since his canvass began. General Morgan refrained from making

HARD TO BELIEVE.

The Senate Is Accused of Actually Rushing Business.

SOUNDS LIKE A FAIRY STORY. Three Appropriation Bills Passed in One Day.

SAYERS PROMISES TO KEEP HANDS OFF.

He Consents Not to Obstruct the Appropriation for the International Exposition Which Almost Assures Its Passage.

Washington, July 13 .- (Special.)-The ser ate has been rushing things this week, as it has never before done in its history. It has been passing appropriation bills at the rate of three a day. It passed the consular and diplomatic, the pension and military academy bills yesterday, and the river and harbor bill today, and went on the legislative, which it will conclude tomorrow.

The sundry civil is to be taken up in committee tomorrow and rushed through to be reported by Monday, when the senate is expected to take it up. On this the Atlanta exposition appropriation goes. Captain Howell and Senators Gordon and Walsh were with the senators of the committee today and they believe they have arranged matters so that it will go through in splendid style. The only danger heretofore seen has been when the bill gets back to the house. Captain Howell has done good work there. He and Chairman Sayers, of the appropriations committee, have become very chummy, and Mr. Sayers has promised to keep hands off. While he says he cannot advocate the bill, he will keep his hands off it and let it go through if the house says so. The fact that Chairman Savers will not fight it means much. That he will hands off means the bill will pass with Colonel Livingston and the other Georgians behind it, shoving as only the Georgia congress-

men can shove. Interested in Livingston's Race. The Georgia members read with much in-terest the account of the debate between Colonel Livingston and Mr. Candler in The Constitution which arrived today. They likewise heard the news that Colonel Livingston had carried Walton county with much pleasure. The Georgians in Washingten are almost unanimous in wishing for Colonel Livingston's return, because they like the man and believe he can be of more benefit to the district and the state right now than any man who could be sent. No body here is disposed to make any fight against Mr. Candler, but all are willing to fight for Livingston

Georgia Is Cared For. The river and harbor bill passed the senate this afternoon, with all the Georgia appropriations just as they passed the house. The only Georgia amendment put on by the senate is that paying Mr. C. P. Goodyear, of Brunswick, \$30,000 for the work he has done in deepening Brunswick's harbor and agreeing to pay thirty, forty and fifty thousand dollars each, respectively, for the next three feet of water he gains on the bar

by his method of deepening the channel with dynamite. Sugar Is the Snag. The tariff conference committee has struck snag in the schedules of sugar, iron and

coal. On all other schedules of the bill they agree on coal and iron. The obstacle on which it appears there will be a wreck is sugar. Both sets of conferees are now playing a bluff game. The senators declare they will not budge a peg from the schedule of their bill, while the representatives hold they will have nothing but free sugar. Of course, both sides are bluffing. The sentors, however, claim they are not, and that they are pledged not to budge from their cannot be predicted now, but the house conferees are firm. They will held out to the end. There must be, and will be, some

middle ground on which a compromize will be reached. Judge Maddox had a telegram from Cedartown today, stating that Colonef Everett had withdrawn from the congressional race. Judge Maddox now feels that he has a walkover. His friends are congratulating him heartily. No man in the delegation

stands higher in the estimation of his col-

leagues than Judge Maddox. Mr. W. H. Coleman, editor of The Cedartown Standard, spent today here on his way to Asbury Park. Mr. Coleman thinks there is no serious danger to the democracy in any part of Georgia from the third party. Colonel John A. Clark, of Augusta, has been ordered by the interior department to go to Wyoming and make allotments of lands in severalty to Indians on the Shonshone reservations. The appointment was tendered him by the president. It pays \$10

Candidacy for the State Senate-Preparing for the Interstate Fair.

Macon, Ga., July 13.—(Special.)—The injunction case of H. H. Williams at al. vs. John D. Campbell, et al., came up before Judge Hardeman, of the superior court, today. This is the case of the intervention secured against the finance committee of the colored grand lodge of Masons of Georgia, restraining it from paying over to the grand treasurer the proceeds of the session. grand treasurer the proceeds of the session recently held in Macon. John D. Campbell is the grand master, The plaintiffs are rep-resented by Attorneys Grace & Jones. The defendants are represented by Wimberly & Felder. Quite a number of the members of the lodge have been in attendance on the hearing all day. Plaintiffs claim that the grand treasurer has refused to make any report and has been upheld in this action by Grand Master Campbell. At the recent session in Macon the grand lodge split into two lodges on account or this difference over the finances. Both sides are making a determined to the sides are making a side of the sides are making a side of the sides are making a side of the sides are sides as a side of the sides are finances. Both sides are making a determined fight for the possession of the money.

The heads of the grand lodges are Grand Master W. E. Terry, of Columbus, and Grand Master J. D. Campbell, of Savannah. Campbell has been grand master for several years. It is claimed that he represents ority element, which has been endeavoring to run the order regardless of its best interests. Terry and the other grand officers of his side wanted the old officers to make an accounting in the courts for the money collected during the past three years, amounting to probably \$5,000.

Changes at the Park. Some changes will be made at Central City park preparatory to the opening of the great Dixle interstate fair. All the exhibition building will be repaired and other improvements made. Floral hall and premium hall be connected under one roof. The lower floor of the connection will be ased for merchants' displays and agricultural exhibits. The upper floor will be used as an art hall. Floral hall will be used as in years past, and as its name suggests. Premium hall will be used for agricultural exhibits. An annex will be built to premium hall, on the river side, to be used for machinery, and adjoining the annex will be an apartment for poultry and pet stock. The old dining hall will be converted into a carriage repository. The grand stand, which has always been on the river side of the race track, will be moved to the opposite side of the track, near the baseball park. This change will be greatly appreciated by all who attend the races, as the sun will then be out of the eyes and faces of the audience. Premium hall will be used for agricultural

The Great Fair.

The indications are that the Dixle interstate fair will be a grand success. More exhibitors will be present than ever before known at any fair held in Macon. The demand for space is very great. These demands come from all parts of the country. They are not confined to Georgia. The agricultural and stock exhibits promise to be unusually fine. There will be handsome displays of merchandise and machinery of all sorts. The list of attractions is very large, and will draw large crowds. The races will be an especial feature. Liberal purses have been offered—sufficiently liberal to bring here some of the finest stables of the west and north. Larger purses have never been offered in the state, and the racing and trotting events will be as exciting as were ever seen on a southern track.

A Bill Is Introduced to Put Sleeping Cars Under the Commission.

This was taken up, discussed for an hour and a half, and then, by common consent, placed on the calendar.

Mr. Hale, in justifying the resolution, said that no one could tell what had become of the tariff bill, and that, so far as the senate and the country were concerned, it was a lost bill.

Mr. Voorhees, while disblaiming any dis-respect or lack of courtesy to the repub-lican conferees, defended the course pursued by the democratic conferees, in excluding the republicans from the conferences as being in the interest of speedy action on the bill. They desired to perfect it, he said, "on their own lines of action," before submitting it to the full conference com-mittee.

After this matter was laid aside, the river and harbor bill was taken up. The first half of it had been gone through at yesterday's session, and the half that remained (forty-nine printed pages) was disposed of in a little less than two hours. The bill was passed and a conference.

"An examination of staple prices, compared with the middle of 1851, following the Baring embarrassment, indicates that flour has declined 40 per cent, wheat 45 per cent and corn 35 per cent, while oats are 30 per cent higher than three years ago. Pork and lard are respectively 18 and 12 per cent higher than three years ago, while the change in prices of butter and cheese are is exhibited in prices for print cloths, sugar, coffee, cotton, refined petroleum and anthracite coal, but raw wool has dropped 37 per cent, — iron, Bessemer and anthra-cite 25 per cent, billets 27 per cent and bi-

tuminous coal 30 per cent.
"All southern cities say business is very dull. The railway strike was directly felt at Memphis, Nashville, Augusta, Savannah, New Orleans and Galveston. Georgia makes report that turpentine has advanced in price and New Orleans that sugar is not in special demand and little is doing. Rice is higher and in request. Exceptionally faorable trade prospects are reported from points in Texas."

What Dun & Co. Says. R. G. Dun & Co.'s weekly review tomor "When circumstances are duly weighed the strength and soundness of bus this country during the past two weeks ar amazing. amazing. With the second city is the country in the hands of a lawless and murderous mob, besides many other cities and towns; with railway traffic almost entirely stopped over the vast area between Toledo and the Pacific; with a presidential procla rection, and passionate answer ordering a million men to stop work; with the prolonged strike of coal miners not fully ended in many states, and with differences between the house and senate on the tariff question so wide that duties affecting mining and manufacturers cannot be anticipated, industries and trades have nevertheless gone on with sublime confidence that the people and their government world soon restore erder. "The shrinkage of business and the depression of values have been unexpectedly small, the failures relatively few and unimportant, and there are even signs in some industries of actual progress toward recovery from previous troubles. "It is a good foundation for hope that firm and wise action by the government has been upheld by the loyal people: that order has been generally restored, and the blockade of transportation has nearly censed, and that the wage earners have, in the main refused to arrest industries at the dictation of leaders. "Cotton manufacture has reduced producthe house and senate on the tariff questi-

tation of leaders.
"Cotton manufacture has reduced produc

"Cotton manufacture has reduced production somewhat, though most of the mills continue to pile up goods, and the stock of print cloths is 1.080,000 pieces. Duliness is commonly ascribed and partly due to the disturbed conditions at the west and south. The same cause affects woolen manufacture, but less directly, and clothlers have postponed orders so long that their efforts to get merely the things they are compelled to have, have greatly strengthened the tone. Orders are small, but in number such that fewer mills have closed since July 1st than was expected.

"The output of iron, which dropped from 110,210 tons to 62,517 weekly in May because of the miners' strike and only recovered to 85,850 tons July 1st, and it 7: uncertain whether it is larger now, for numerous

of the miners' strike and only recovered to 85.850 tons July 1st, and it \$\frac{1}{2}\$ uncertain whether it is larger now, for numerous western works have been stopped by the railroad blockade. Actual consumption in June was larger by \$5.782 tons than figures of production indicate. Unsold stocks having been thus reduced. The Iron Age reports productions in the first half of 1894 as 2,450,000 tons against 2,551.584 in the last half of 1893, and 4,769,683 in the first half of last year. Stocks were reduced this year 264,461 tons, but increased 206,700 during the last half of 1893, so that actual increase in manufacture has been 14.8 per cent larger than in the last half of 1893, though but \$60 per cent of the ordinary capacity. Little can be judged from the present slack demand as trade is so meb interrupted, but there has been a rather inactive week in orders at Chicago and in eastern markets the demand keeps works fairly busy.

"Foreign trade does not gain, exports being 11.4 per cent less and imports 40 per cent less than last year.

"The banks note more satisfactory settlements of maturing debts.

"The decrease in failures exhibited last week is followed by good returns for July thus far. Reported liabilities in the first five days were only \$811.567, though mail delays keep hack some western returns. The number of failures during the past week has been 27 in the United States, arginst 25 last year, and in Ganada, 49, against 25 last year."

Candler Declares Himself Opposed Now and Hereafter Against the Coinage of Silver on Any Ratio Whatever.

CLAYTON IS SAFE.

It Is Certainly in the Livington Column

for Congress.

THE TERRIBLE ROAST OF CANDLER

Administered to Him by the Newton

Jonesboro, Ga., July 13 .- (Special.)-"I am opposed to the coinage of silver at any ratio," was the declaration of Milton A. Candler in the joint debate today.
"Not until silver becomes equal to gold in value will I support such coinage. The democratic party has suspended the

coinage of silver." Such were the declarations of the contestant for the succession to Colonel Liv-ingston's seat. They fell like douches of ice water upon the farmers present, who have been trusting to the democratic party for financial relief. The reply of Colonel Livingston was a

evelation. His rising was greeted by a emonstration which forced Colonel Watdemonstration which forced coined waterson to declare to me that he would carry the county. The colonel toyed with Mr. Candler as a cat would with a mouse. He was thrown up in air and caught deftly as the fell, only to be thrown up again. Such finesse in tearing a man to pieces was never witnessed here before. It was a political flogging which but few men have received, and which stamps Colonel Livingston as the champion stump orator of the south

the remark of a leading third party man to your correspondent this evening, "but his speech of today forces me to enter his

The Arrival of the Candidates. When the Atlanta train reached Jones-boro this morning. Colonel Livingston step-fed from the smoker, where he had made elf at home with the boys. Colonel Candler, however, traveled in the more exclusive parlor car, which he left a few moments after Colonel Livingston had alighted from the popular coact. Both gentlemen were met by Mayor Augustus Morrow, Chairman Watterson, Colonel John B. Hutchison, and other leading citizens. They were escorted to the places which had been provided for them, where they received callers until the hour of 11

a. m. had arrived.

The courthouse was well filled with men whose appearance indicated that they were thoroughly representative. The different lines of life were there—farmer, mechanic, merchant and general utility representa-Colonel Watterson, as chairman of the democratic committee, called the meet-ing to order, when Colonel John B. Hutchion was elected chairman and Mr. J. A. The chairman introduced Colonel Candler

in a few words of graceful eulogism.

Colonel Candler Speaks.

Slight applause greeted the apevidently laboring under great mental strain, for his relative, Colonel John S. Candler, had spent the day before in the county, where he found but cold comfort.

"I will say no word here today," said the speaker, "which, after the election, may be taken up and used against the democratic nominee. I have against the sitting member no unkind personal feeling. But while no word is to be said in this council of democrats which can be used against us hereafter, there should be perfect can-dor in the discussion of the proper man to hold the banner of the party. Fidelity to ies there must be some one to hold aloft the banner in the face of the opposition.
As Mr. Livingston claims that I spoke disparagingly of him in my Atlanta speech, I have accepted his challenge to be here.
"Walton county voted yesterday," said

"Walton county voted yesterday," said Colonel Candler, with a nervous twitch, "and the campaign is well under way. Colonel Livingston, on hearing of my candidacy, said it did not give him any trouble, and proceeded to declare that it was inspired from the interior department. If that meant that he was in such opposition as to invite the censure of the administration, then I declare he is not a fit person to hold the banner of the party. The peoto hold the banner of the party. The people have elected a democratic president, there is a democratic cabinet, and both branches of congress are democratic. It Colonel Livingston's claim to re-election is opposition to the administration, then he is not a safe leader. Every man who care

Colonel Candler then proceeded to attack Colonel Livingston because of certain headlines in The Constitution's report of his Atlanta speech. The headlines were to the effect that the "alleged taint" had been removed, and Colonel Candler proceeded to relate that Colonel Livingston had purged himself of the taint of Ocalaism at some meeting of which Mr Jack J. Spalding was chairmani Colonel Livingston, declared Colonel Candler, was elected to congress in November of 1890 as a democrat, yet in the December following, notwithstanding his purging before Jack J. Spalding, he was in Ocala, endorsing a platform.

"Does Colonel Candler know that the Ocala platform was sent to Mr. Cleveland? You not?"

Colonel Livingston—"So am I. That taint does not smell so bad now, does it, since it involves Northen, Gordon and Cleveland? Clayton county two years ago endorsed the Ocala platform, so that the stench must exist even here.

"You are a Cleveland? You are a Cleveland? You not?"

Colonel Livingston—"So am I. That taint does not smell so bad now, does it, since it involves Northen, Gordon and Cleveland? Clayton county two years ago endorsed the Ocala platform, so that the stench must exist even here.

"You are a Cleveland? You are a Cleveland?"

Colonel Livingston—"So am I. That taint does not smell so bad now, does it, since it involves Northen, Gordon and Cleveland? Clayton county two years ago endorsed the Ocala platform. When we present you in 1896, with a ticket of Stevenson and Cloveland? The ocupation of the ocal platform was sent to Mr. Cleveland? You are a Clevela ing, he was in Ocala, endorsing a platform which called for a subtreasury and the free coinage of silver. Here was Colonel Livcoinage of silver. Here was Colonel Livingston pledged to democratic principles, endorsing priciples contrary to democratic faith. "It is a question with you," said Colonel Candler, "whether the taint has been removed. Not only this, but in the January following his taking his seat he introduced a subtreasury bill. With the flag of democracy in one hand, he was introducing this kind of legislation with the other." Colonel Candler next proceeded to attack the silver record of his opponent. He read the national platform for the purpose of making it appear that it did not favor free coinage, and then sought to impugn Livingston's democracy because he favored continued coinage at 16 to 1, which has been endorsed in the Omaha platform. "There was never such a scheme as that ask us to wait until judgment day before ingston piedged to democratic principles, endorsing priciples contrary to democratic faith. "It is a question with you," said Colonel Candler, "whether the taint has been removed. Not only this, but in the January following his taking his seat he introduced a subtreasury bill. With the flag of democracy in one hand, he was introducing this kind of legislation with the other."

Colonel Candler next proceeded to attack the silver record of his opponent. He read the national platform for the purpose of making it appear that it did not favor free coinage, and then sought to impug Livingston's democracy because he favored e-ontinued coinage at 16 to 1, which has been endorsed in the Omaha platform.

"There was never such a scheme as that of the subtreasury since Joseph gathered corn for Pharaoh in Egypt. There were democrats who could not vote for Colonel Livingston when Judge Hillyer ran against him, and they stayed at home. In Clayton county they voted for Sam Small as the least of two evils."

At this time there were four cheers given to Colonel Candler. One was from Joseph Watterson, the others from three third party men in the rear of the hall.

"Colonel Livingston has stated in a speech that everything ought to be taxed, a proposition which I do not accept. He says he is on every plank of the platform with both feet. Is he?"

Here Colonel Candler read the coinage plank of the platform with both feet. Is he?"

Colonel Livingston has stated in a speech that everything ought to be taxed, a proposition which would be interesting to know who these parties were coinage. Livingston had as much to do with the would be interesting to know who these parties were coinage. Livingston has stated in a speech that it did not contemplate free coinage. Livingston has stated in a speech that everything ought to be taxed, a proposition where the subtreasury plank of the platform with the view of showing that it did not contemplate free coinage. Livingston had as much to do with the platfo

dollars at any rato," shouted Colonel Candler, "because we cannot maintain their parity with gold. The democratic party has suspended sliver collage, not demonstized it. I will favor a restoration of the collage only when silver becomes equal to gold."

The same four cheers met this chilling declaration. The rest of the audience listened in silent smazement.

Colonel Livingston Speaks.

When, in words of eloquent approval, Hon. A. G. Morrow introduced Colonel L.v-ingston, the audience went wild in its demonstration. It was in such marked contrast to the silvince which met Colonel Candler that it could not fail to be noticed.

"I am not a stranger," said he, "to some of the gentlemen who cheered certain statements hade by Colonel Candler. I know who they are, and submit to them that as soon as their leader. Tom Watson, hears of their cheering Colonel Candler's anti-silver iceas, that he will get after them vigorously. Colonel Candler says he is not now in favor of silver coinage, and leaves it an open question whether he will do so before judgment day. When a preadher takes a open question whether he will do so before judament day. When a preacher takes a text, you must read his whole sermon, because he generally departs from his text. So has Colonel Candler today. He started out to say nothing of his democratic opposent which could be used against the party hereafter, yet his whole speech has been a violent personal attack. What was he catering to those third party people for? He doesn't care a cent for democracy, and only looks for anything that may hurt Livingston. When he says it's a habit of congressmen to want to get back, he speaks know.ngly, for I know of no man who has been so anxious to get back as himself.

been so anxious to get back as himself. (Great applause.)
"Right down here they beat him on his financial record. The men who put Ham-mond in his place will say that they did so because of Candler's bad financial record. the was too fond of gold. The ticket voted in Atlanta was printed in green, and stated that the issue was in favor of the financial

views of Hon. Allen G. Thurman.

"When he was defeated there was no such doctrine as he preaches today. No one then would say that he opposed silver coinage." Colonel Candler-"That was not an issue.

Colonel Livingston—"On the Atlanta ticket it was distinctly stated that Thurman's views were those endorsed.
"I mention this," said Colone Livingston, with a humorous twinkle, "to show that people were not always hanging on a gold hook."

hook."

Colonel Candler—"Read the platform."

Colonel Livingston.—"That I will do, so as to show how far away you are from it. I will show that, like Ephraim, you are wedded to your idol. It is untrue that I ever stated that the suggestion of Colonel Candler's candidacy came from the interior department. I did say that I believed it was department. I did say that I believed it was

nspired by certain persons in the district "I can give better evidence that I am a good democrat than can Colonel Candler. When it was made I took the platform and When it was made I took the platform and Cleveland, and went over the country in its defense, which Colonel Candler did not do. In defending Cleveland it fell to my lot to defend the secretary of the interior as best I could, because they were democrats, engaged in carrying out the platform. As long as they are on the platform, I will fight for them, whether I am in or out of congress."

"So, colonel," said Colonel Livingston, addressing Colonel Candler, blandly, "you will not get a chance to make an administration issue. You will have enough to do when Hines gets in the field to keep people from voting for him.
"Neither Candler, myself nor Cleveland

has a right to go before the people except upon a record of fidelity and service. Not fidelity alone, for it is easy for a drone to say 'I am a democrat,' but service, which means hard work. A man who wants work, but structures that it must be easy, does not merit your confidence. If they would sit around in their law offices like Colonel Candler, they would be faithfui, but not serviceable.

Colonel Candler—"I never went around

with a satchel looking for votes."

The sharp retorts of Colonel Livingston nettled Colonel Candler so that he lost his temper, in which he was joined by Colone Watterson, who seemed to be grooming

him.
"When these third party people," continued Colonel Livingston, "get 'o voting for Hines, then you will have a chance to show whether you are serviceable or not. "Colonel Candler was in congress four years; I have been there four years. Take the records and see which was most ser-

"That story about me giving some sort of pledge to Jack J. Spaiding is false in every part. When the convention of the fifth district met, and nominated me in 1899, I went before it, thanking the delegates for the honor conferred, and stating that in my hands the banner should never be trailed in the dust. In my Atlanta speech I recalled this incident, yet Colonel Candler would distort it to mak'r it appear that I went before some secret caucus

Colonel Livingston's claim to re-election is opposition to the administration, then he is not a safe leader. Every man who carries the flag should be loyal to the administration as long as it is true to the pledges upon which it was elected."

The speaker then quoted the Burke county resolutions, and The Constitution's endorsement of them, to the effect that every man carrying the banner should be true to the platform. All of this was preparatory to the déclaration that Colonel Livingston was not such a man, because he had been a member of the Ocala convention.

"There should be no other claim to recognition," exclaimed Colonel Candler, "than service to the party."

Colonel Candler," said Colonel Livingston because of the glatform. Do you not know that Colonel W. Y. Atkinson, who is to be our candidate for governor, came to me and remarked upon the similarity of the Ocala convention as a democrat. I was there as a farmer, and not as a politician. Governor Northen joined the alliance and took every pledge that I did, yet Colonel Candler has only praise for him. He also speaks of the glorious Gordon, etc., yet Gordon joined the alliance, subtreasury and all, and but the other day stood up in the senate to declare than he was a farmer.

"Does Colonel Candler," said Colonel Livingston, who is to be our candidate for governor, came to me and remarked upon the similarity of the Ocala convention as a democrat. I was there as a farmer, and not as a politician. Governor Northen joined the alliance and took every pledge that I did, yet Colonel Candler has only praise for him. He also speaks of the glorious Gordon, etc., yet Gordon joined the alliance, subtreasury and all, and but the other day stood up in the senate to declare that he was a farmer.

"Does Colonel Candler know that the Ocala platform. Colonel Candler know that the Ocala platform to the Georgia platform. Colonel Candler know that the Ocala platform to the Georgia platform. Colonel Candler has a democrat. I was the candle in the colonel candler has only pra

exist even here.
"You are almost by yourself on your goldbug platform. When we present you in 1896, with a ticket of Stevenson and Crisp, both silver men—(great cheers)—you will see democrats in office who will not seek us to wait until judgment day before ask us to wait until judgment day before we are given relief. "When I ran for congress I pledged my-

order to get rid of a protective tariff in any form; I favored taxation on everything so as to get rid of the excuse for protection. I never will support any clause for protection if I can help it."

Turning to silver, Colonel Livingston said: "Turner is in favor of colnage at 20 to 1. I am in favor of it at 16 to 1. Why? Because we need the money right now. Must all democrats be denounced as populists because they favor the colnage of silver at some ratio? Mills voted for the seigniorage bill. So dld Gordon. The platform declares for the colnage of silver now, in the present tense, yet Colonel Candler would defer it until judgment day. I will vote for no dollar that is not the equal of any other dollar, but we can make as will vote for no dollar that is not the equa-of any other dollar, but we can make as much money as this country needs, and make it all as good as gold." (Cheers.) Colonel Livingston, in eloquent terms, related his work in the canvass of 1892, calling forth the wildest demonstrations of

approval from the audience.

The reply of Colonel Candler was hestarag and unsatisfactory. In fact, it was no reply at all. He spoke for about fifteen minutes in silence, and concluded without receiving a single demonstration.

Sol Coleman Looks Fifteen Years Younger Than He Is.

Paine's Celery Compound Gave Him Strength and Health.

No one would ever think to look at Mr. | cigar, and he believes in securing the latest Sol Coleman, who resides in Memphis and and best things which invention or science is known throughout the land, that he ever has given to the world. What more netuhad any trouble in the world.

He certainly looks fifteen years younger than he really is, and is hale, hearty and as every one knows, good looking.

But not over a year ago, he was in state of debility bordering on collapse. He was overworked, run down, his nerves were out of order, his head acned and he was coubled with indigestion and sleeplessness. What caused the change?

Mr. Coleman is an enterprising man, the proprietor of the Pepsin Ko-Ko Tulu chewing gum and his celebrated Rosa Concha

ral, therefore, than that he should take the greatest of modern discoveries for these very troubles, Paine's celery compound?

That is the matter in a nutshell. Coleman is well and hearty today, simply through the use of Paine's celery compound and he is not by any means alone. Livingston Will Sweep the District.

"Colonel Livingston can and will be ted without the vote of Fulton counsaid The Constitution yesterday, and we repeat it today. Not that there any doubt about his carrying Fulcounty, but because the people ald understand the situation and appreciate the position in which a will be left before the country should Colonel Livingston be nominated unt its vote.

Colonel Livingston has already carried Valton county by a vote of three to one yton, Campbell, Newton and Rock counties act on the 21st instant, ee days after Fulton. Colonel Livston will carry every one of these ities, and also Douglas, by overchelming majorities, giving him, with he vote of Walton, sixteen votes or re than enough to nominate in the evention. This accounts for all the ties in the district, except DeKalb nd Fulton. DeKalb county will be the it to act, its primary taking place on 28th instant. It is Colonel Cand-'s home county, but Colonel Livingdeclares he will carry it by a large ority, and our advices from the counicate that he is not mistaken. The honia New Era, the strongest paper the county, has actively espoused nel Livingston's cause, and reorts received from Stone Mountain and o from the country precincts of the aty indicate that it will certainly

ast its vote for Livingston, As to Fulton county, Colonel Living on's majority will be scarcely less rked than was his victory in Wal-He will carry every ward in Atata and every precinct in the country he strained effort of The Journal to eive the people is manifest to the encommunity. The very men who thus endeavoring to mislead the ic admit privately that Livingston Ill carry the county. Ask one of them nd if he says Livingston will not carry v. find out if he is re st, and watch him drop.

But the public will not be deceived, e people of Atlanta will not allow city to be put in such a position as ald occupy before the world should ionel Livingston be nominated withove any other county in the district, ularly at this time, should extend helping hand. It is but justice d Atlanta is not accustomed to doing st and unreasonable things.

foreign debts and collect our foreign dues only in commodities. Our gold coin is itself but a commodity the moment it goes abroad—mere buillion, worth so much an ounce in the country to which it is carried. The nation in whose favor the balance of trade lies does not necessarily drain the debtor countries of their coin any more than of their pound weights and pint cups; it drains them of general wealth—accumulates their securities and compels them to give it of their products in discharge of interest or dividends.

This is true. Even with our depreclated greenback currency for fifteen or sixteen years when we had no coin in circulation, our trade with Europe was normous and our people imported more luxuries than they have ever had before or since that period. If our trade did not suffer when we had an irredeemable paper currency, made a legal tender by the government because it had no money, we can certainly get along with currency of gold, silver and redeemable

This is the common sense view of it There is no more reason for waiting until Europe adopts bimetallism than there would be in waiting for Europe to adopt any other good thing which is within our reach and under our control.

Workingmen Are Not Lawless The recent strike has shown that the

workingmen of the United States are the loyal supporters of law and order. There is plenty of evidence to show that the real strikers—the Pullman men and the railroad men-had no hand in the violence at Chicago and elsewhere. The disturbers of the peace were idle foreigners unacquainted with our institutions and unable to speak our language. Among the rioters killed by the soldeir were men with such names as Jockman, Warzowski, Gajewski, Scarijanski, etc. American workingmen and foreigners who come here to seek an honest living by the sweat of their brows, had nothing to do with the row. On the contrary, they have aided the authori-

ties in restoring peace and order. The average American workingman believes that he has a right to quit work when he is dissatisfied with his job, but he is not going to assault the man who takes his place, and he has no idea of destroying the property of his late employers. That work of violence and destruction is carried on by vagabonds who delight in anarchy, arson and pil-

When deputies and posses were needed to uphold the law in the western states last week honest workingmen were among those who responded, and thousands of them marched in the ranks of the state militia. It is well to have these things understood. The American workingman can complain of his grievances without being an anarchist; he can be a striker without being a rioter. and he can demand what he believes to be his just rights under the law with out being an enemy to the government

Out of a Job.

In these hard times when a man has

Job he had better stick to it. Every wage earner has somebody de endent upon him-a father or mother, or a wife or children. If he is without these he still has to feed and clothe him self. All this requires money, and many toilers have no income beyond their

wages. Men cannot throw up their jobs thes days and expect the generous support of a sympathetic public. Landlords butchers and grocers want cash and the man out of a job is no favorite with

them. plain that his wages are too low. That is unfortunate, but will he improve his condition by going without any wages at all? Hard times hurt employers as vell as the employed. Sometimes wages are cut in order to keep men at work and avoid the shutting down of a great industry. The sensible thing to do is to make the best of it until times im-

We have heard of so much suffering among men out of work with half starved families that we are astounded at the folly of others who are willing to give up their jobs and risk the consequences. Such conduct is utter madness. For every man who steps out of a job twenty stand ready to take his lace. Let no man in any position de ude himself with the idea that he is indispensable. There is no such thing as an indispensable man. Thousands of the brightest, most industrious and capable men that ever walked the earth

are now out of employment or doing

odd jobs until they can secure the work they are best fitted for. If any man thinks that it is a big thing to show his independence by giving up his job when there is no other in sight he should first find out what his wife and children really think about it. It is a pitiful sight to see everything in a little cottage sold to buy food for the wife and children of the man who is out of a job. It is harder still when the landlord drives them out.

Stick to your job, and, if any one tells you to quit it-

* Somebody's Business

A well-dressed man about thirty years old, with a gold watch and \$260 in his pocket, committed suicide in a Brooklyn cemetery the other day. His name was George Frank, and near his body was found the following note: You may want to know why I committed suicide. It is nobody's business.

This poor fellow was entirely wrong.

His suicide was somebody's business and so was its cause. A man does not live for himself alone in a Christian community. He lives for others, and It is his duty to take care of his mental and physical faculties and prolong his life for the benefit of those around him. If a man has no family he still belongs to society, to the state, to the government. His services may be required by his neighbors in offices of kindness and Christian charity, or the state may need him in peace or in war, and he has no right to shirk his duties to God and

man by rushing into a suicide's grave. The cause of his suicide was some body's business. Was it man's inhunanity to man, or crime, or disease or It should have been made When a fellow mortal becomes a self-murderer we should know the

A Democratic Tariff. The house should make one more effort to secure a democratic tariff—a

tariff for revenue. The protective features of the bill as imended by the senate should be elimnated if possible. The house bill is a step in the right direction. At least, it is an improvement on the McKinley tariff. The house should make a short, sharp determined fight for it. Even if t is unsuccessful, we can still fall back on the senate tariff. We can lose nothing by attempting to make it a democratic measure.

But whatever is done should be done quickly. Let us put an end to the unceratinty which has demoralized business for the past year and a half. It is better to decide the matter one way or the other than to have an endless dis-

cussion. Merchants and manufacturers are waiting, and the present stagnation of bus'vess will continue until something s settled. The house will find a pro tracted debate very unprofitable. Not single vote is likely to be changed by speech making, and the sensible course would be to let the senate know just what is wanted at the earliest pos sible day.

We have had too much delay and no certainty already, and commerce and ndustry impatiently await the signal o resume their normal activity. Even the new tariff is only a shade better than the McKinley bill it will benefit us to some extep+, and the sooner it goes into operation the better. There is no sense in making 70,000,000 people wait several weeks longer at a time when the necessities of the fall and winter trade demand immediate action.

The tariff can be licked into shape and sent to the president for his signature in a few days if our statesmen will get down to business and make no speeches The country does not want any more tariff talk-it wants the tariff reformed But let us not swallow the senate bill until we have put in our best licks for democratic tariff. Now, let the house make a supreme effort!

Utah as a State.

Utah will be a state as soon as the president signs the bill which has pass ed both houses.

The new state had a population of 207,905 in 1890. In population it will be a larger state than either Delaware. Montana, North Dakota, Nevada, Wyo ming or Idaho. Only one-third of the inhabitants are foreigners.

The present representative in comgress is a democrat, but if the republi can candidate against him could have commanded the separate Mormon vote the democrats would have been defeated. The Mormon vote will largely determine the elections.

It is difficult to forecast the future of Utah. The anti-polygamy legislation of congress has almost broken the political power of the Mormon church, and polygamy is not openly practiced any onger. The trouble is that as a state Utah will be in a great measure independent of federal authority, and it is ore than probable that the Mormons

will show a dangerous activity. The state is nearly twice the size of New York. Mining and agriculture are principal occupations of the people but the silver mines are the chief source of wealth. The Mormons have had possession since 1847, and their capital, Salt Lake City, is a beautiful town with a population of about 50,000. The Mormon temple, recently dedicated, cost several million dollars.

The admission of Utah will give us forty-five states and ninety senators, and the addition of these two may have a controlling influence in the senate.

EDITORIAL COMMENT.

The recent earthquake at Constantinop in which more than 100 persons were killed, has revived public interest in that ancient city. Constantinople is one of the most interesting places in the world, as well as a natural seat of empire. Naprieon Bonaparte is said to have declared that "the power which possesses Constantinople must be mistress of the world." At any rate, in the twenty centuries and more since it was founded, it has stood more sleges than was founded, it has stood more steepes that only other city, yet has been taken only twice—once in 1204, by the crusaders; once in 1453, by Mahomet II. Studded with numerous gardens, mosques, minarcts, palaces and towers, it is most picturesque when viewed from without and the scenery along the banks of the Bosphorus makes a mag-nificent setting for the central gem. But, though it is cleaner than most oriental towns, its streets, or crooked lanes, rather, ere dirty, its dwellings are small and il built, while myriads of dogs offend the stranger's vision by day and distract him by their incessant barking at night. Most of the streets are deserted during the day—the population is nearly one million—except in the nieghborhood of the bazaars. which are streets roofed over, having at in-torvals openings, domes or glass coverings admitting dim light—too much for the seller, not enough for the buyer. The Grand Bazaar, with its numerous streets, pas-suges and fountains, seems a city within a city. PUBLIC OPINION.

New York Recorder: That great patriotic speech of Senator Gordon, of Georgia, almost compensates for the losses and inconveniences we have suffered from the western strike; for, if these disturbances had not taken place, the speech would not have been made. It should find a place in the textbooks of the school children.

Chicago Inter Ocean: The 10th of July, 1894, is likely to be one of the red letter days in the annals of the United States days in the annals of the United States senate. The speech of General Gordon, of Georgia, alone would give it a bright carmine. The Debs insurrection in general and the Peffer-Kyle expressions of sympathy with it in particular served to fire the patriotism of that magnificent old veteran of the confederacy, and it flamed up with an eloquence worthy the best days of congressional eloquence. Others spoke in the same strain, notably Senator Davis, of Minnesota, but there was double significance in the superb outburst of loyalty cance in the superb outburst of loyalty from the lips of the senator from Georgia. He was one of the first to take up arms against the union and one of the last to lay them down, but he is still more ready to champion the cause of law and order against anarchy.

New York Herald: In our opinion there is always something to arbitrate and something to discuss when there is an honest difference between employed and intelligent, well meaning employes which the parties themselves are unable to settle. If he employer is wholly in the right, as Mr.
Pullman claims to be, he has nothing to
risk or lose by arbitrating, for the reason
that its very purpose is to uphold the
right. "There is nothing to arbitrate" is the imperious dictum of an autocrat, for-eign to the American spirit of fair dealing. It was the dictum of Carnegie and Frick, followed by the bloodshed of Homestead. Suppose either England or the United States had foolishly proclaimed in the Beb-ring sea dispute, "There is nothing to arbi-trate," Joes anybody doubt that a bloody war would have followed?

GEORGIA POLITICAL NOTES.

Commenting on the unexpected with drawal of Hon. R. W. Everett, from the congressional race in the seventh district The Cedartown Standard says: "The southern part of the district is ractically solid for him, and he had a good fighting chance in some of the northern counties, but Colonel Everett feels that a contest, between democrats for the nomination now might lead to dissensions which would imperil democratic victory in the coming election. Hence he withdraws, thus leaving a clear field for Hon. John W. Maddox, the present incumbent. This unexpected action on the part of Colone Everett only gives additional evidence of the purity of his patriotism and the gen-uineness of his democracy. In conversa-tion with The Standard man yesterday, he said that he never expected to enter politics again, but we venture the prediction that in coming years the party will again demand his services in congress, where he made such an excellent record as a states

The Chattoogs News believes that Hon, Seab Wright will be an independent candidate for congress in the seventh.

The Griffin News is of the opinion that Hon. Hal Lewis, of Greene, would make a formidable figure for the presidency of the enate if he should conclude to accept the nomination for that body.

The Rochelle South, commenting on Congressman Turner's Atlanta speech, says:

"It was a filmsy affair, a miserable straddle of everything and was devoid of anything positive. Mr. Turner's idea of silver coinage of 20 to 1 was just as dishonest as 16 to 1. According to his theory, it would have been a dishonest dollar because it did not represent a parity with gold. It would take the mints thirty years to recoin the silver now coined and would have reduced the amount of dollars one-fifth. Why not coin it at 16 to 1, and if gold should go to a premium, let it go there? We remember distinctly when gold was worth 50 per cent curren, yet we had prosperity with it and everybody could find employment. Trade was buoyant, property brought its value and we were in much better shape financially than we are now. If it were possible for the democratic party to retain control of the government another term after Cieveland's present term expires and they should pursue the same policy the people would rebel and overthrow the government by revolution, and may do it before Cleveland's term expires."

Many queer stories are brought to the surface in the pension department, and Captain Tip Harrison always has a good one to tell. The latest is based on a lette which Governor Northen has received fro a resident of one of the counties of middle Georgia. The letter is certainly funny enough of itself and needs except the mere elimination of the name of the man who signs it. He is evidently made the victim of a practical joke, hence his name is not used. The governor, in order that his feelings might not be hurt, wrote a reply, explaining at some length

his inability to grant the request. But here is the letter to speak for itself: "To His Excellency, W. J. One of the most prominent democrats of Elbert county, who is a strong supporter of Judge Lawson for the congressional nomination; writes to The Constitution, giving his version of the action of Elbert's democrats in calling a primary to decide as to in which column the county's votes shall go. He claims that the Lawson men set out to run over everything, and select Lawson delegates at all hazards. They had emissaries out to scour the county, and then, on the day of the mass meeting, made then, on the day of the mass meeting, made an effort to stampede things by howling down everything that was contrary to their desires. "The McWhorter men," so the writer says, "urged fairness and harmony, pledging unreserved fealty to the nominee, whomever he might be. They planted themselves squarely on the usage of the party, and demanded a primary election. This they did, and there they now stand; and when it is had, should the result be against them, there will be no disaffection among the McWhorter men." The Lawson men, the writer says, wanted to exclude the negro democrats from voting in the primary. He makes the point that the colored democrats have voted in the primaries ored democrats have voted in the primaries since 1863, and nobody has a right to take from them that right.

FORGED ORDERS.

Ronsing Rally of Colonel Livingston's | Colonel James Smith Victimized by Some of His Free Laborers.

A Party of Citizens Searching for Them Near Jonesboro Said to Have Shot an Innocent Man-A Convict Caught

George Sims, John Ezzard, Aaron Arnold and Harry Arnold, four negroes, were brought in from Griffin last night.

They were in charge of Detectives R. H. Newell and J. W. Norris, who are employed on Colonel Jim Smith's convict farm in Oglethorpe county.

The negroes are charged with forgery.

The negroes are charged with forgery Colonel Smith not only works a big force of convicts on his extensive plantation, but employes a large number of free laborers.
Until recently the above negroes were

working for him and on Saturdays were given orders on his store at Smithsonia for whatever goods or money they needed The negroes conceived the idea of increas ing their gains by forging orders, it is charged, and raising the amounts on those given them for their work. This went on for guite awhile before it was discovered. In posting up the books a few days ago, however, the worthless orders were found. The negroes in the meantime had disappeared. Captain Smith immediately published a reward of \$100 for their capture, and the Atlanta detectives were on the lookout for them. They were traced to the outskirts of the city, but they managed by circling the city to evade the local detectives. However, they were closely pur-sued by Detectives Newell and Norris and were yesterday captured at Griffin. The prisoners were locked up at the police station last night and will be carried back to

Smithsonia this morning.

It is understood that a posse of citizens near Jonesboro, who had organized to hunt for these negroes, shot an innocent negro on Thursday night. Fortunately the

wound is not dangerous, but the negro will be laid up for some time. As good luck would have it Fanny Witcher, a negro woman who escaped from Col-onel Smith's camp about seven weeks ago, was also captured last night. Detectives Joe Green and R. H. Newell found her on Gartrell street and brought her in about an hour after the other prisoners arrived. She, too, will be carried back to the con vict camp this morning.

Will the Out-of-Door Performances

ARRESTED IN GRIFFIN. IN AID / OF THE EXPOSITION.

What the Ladies Are Doing-Their Plans for the Week's Entertainment-News, and Notes of Society.

The ladies are now bending all their energies to making the spectacular produc-tion which is to be given at Pledmont park next week a great success. The produc-tion is under the direct charge of Professor Agostini, which is enough of itself to insure a brilliant success, but no pains have been spared in making it that in every respect.

As has been stated, it is to be an open air performance, and unless the almanace goes wrong there will be plenty of moon-light next week. It is a pleasant ride to the exposition grounds, and will be especially pleasant at night. A large stage has been erected in front of the grand stand, elabo-rate scenery has been prepared, and there will be all the mechanical devices necessary

to make it go with the greatest eclat.

In the cast Miss Gordon will be the queen of Glitter, Miss Bessie Tucker will be queen of Fairyland, Master Percy Lynwood will be the leading man, and in the support there will be fifty young ladies and gentlemen who will take part in the beautiful kirmess dances, which are to be interspersed with good specialties throughout.

Master Lynwood made a great hit when he appeared once before in Atlanta. He is a very talented boy, a good actor and a really wonderful singer. His voice is a perfect soprano, and it is without the least effort that he reaches the high notes in such selections as "Answer," "La Paloma," and others which he has made quite pop-

ular wherever he has sung.

Miss Huntington, who will do Spanish dances, will, it is claimed, make quite a sensation. Miss Gertrude Freeman reached the city last evening and will be one of the features of the performance. She is said to be strong, both in singing and in acting. And there is Miss Etheridge, who will do jig dances, and little Miss Rosa Coates, who made just a hit in Professor Agosti-ni's last entertainment, and who, in the recent kirmess at Savannah, won many ardent admirers by her unequestionable talent. Misses Byrd, Fear, Stokes and Wylie also fill important places.

It is the intention of the management to keep up these entertainments through the summer. The price of admission is very small, and yet they hope to interest people so that they will go often. The accommodations will be everything that could be de-

The young people's meetings at the Second Baptist church are becoming very delightful affairs. Some of the best musical talent of the city, both instrumental and vocal, take part in the exercises at every meeting. The talks by Dr. McDonald are always instructive and entertaining. Not the least feature of the meeting is the social part. Strangers are especially looked after and introduced and made to enjoy themselves. The meeting Friday evening promises to be the best one yet. Everybody is invited and welcome.

Captain T. M. Randall, of the East Tennessee, accompanied by his wife, has re-turned from a trip to Cumberland and St.

Mr. J. A. Manning and family left yesterday for Cieveland, Tenn., where they go to spend their vacation.

Mrs. Hugh Porter has returned from a trip to Gainesville and is at her home at the Kimball.

Messrs. M. N. and T. C. Bischoff, of Jacksonville, Fla., who are connected with the Clyde Steamship Company, were in the city yesterday on their way home from a trip to their old home. Both are well known in the city and have been spending their vacation with their mother.

Mrs. F. Chambers, of Irwinton, and her daughter, Mrs. J. L. Baker, of Macon, are visiting friends in the city, and are stopping at the Hotel Arlington.

An entertainment will be given for the pleasure of the guests at the Elder house at Indian Spring tonight. The Misses Zanebar, of St. Augustine, Fla.; Miss Maggie Withthead of Social Circle, and several gie Whitehead, of Social Circle, and several of the young ladies will present an oper-etta, introducting pretty tableaux, dancing and catchy music.

WEATHER SYNOPSIS AND FORECAST.

The weather has slowly and steadily been getting warmer in Atlanta. The same is true, not only for the other parts of the state, but for neighboring states also. In Atlanta the change to warmer has been steady for three days past, and again there is normal heat felt. Yesterday's temperature averaged but 1 degree less than the normal temperature.

Over the whole country east of the Mississippi river the weather was generally pretty warm vesterday, also for a few hundred miles west of the Mississippi, but in the Rocky mountain region, and as far east as Nebraska, cooler weather prevailed. At Denver, Col., and North Platte, Neb., the highest temperature for the day was only 74 degrees. The highest temperature known anywhere in the country was 86 degrees, reported at Baltimore. At New York city, too, the maximum temperature was quite high, 94 degrees.

Few rains have been reported in any section, except along the Gulf coast. At Tampa, Fla., and at Corpus Christi, Tex., the rainfall was heavy. At the former place the rainfall in the twelve hours ending at 7 o'clock last night was 1.54 inches. At the latter point, Corpus Christi, the rainfall for the same period of time was 1.01 inches.

Forecast for Georgia touay: Generally fair; continued warm.

IN THE LOCAL FIELD. WITH THE RAILROADS

Gathered from Many Sources.

THE CITY BRIEFLY MIRRORED

Items from Courts, Police, Industry, Politics, the Churches and Other Departments-Life in a Large City.

BETSY HAMILTON.—One of the rarest treats of the season will be the appearance of Betsy Hamilton at the Christian church next Tuesday night. She has been listened to with keen delight by many and she is tl croughly appreciated, especially in At-lanta, where she has always been a favor-ite. While Betsy Hamilton alone would be worth the price of the small admission, the programme will be more extensive. It will embrace a number of vocal and instrumental pieces by some of the best mu-sical talent in the city. There should be a big arowd out next Tuesday night to hear this interesting programme and aid the ladies of the Christian church in a work of charity.

IN TWELVE SPOT .- Herschel McDonald, the slayer of the Greek, Fontano, now oc-ouples the famous "Twelve Spot" cell in the county jail, the cell which has had as inmates all the noted criminals that have been in the courty jall in a long time. The cell is the first one on the left upon enter-ing the jail. McDonald has with him John Lacewell, who shot Patrolman Tom Barrett. McDonald has been a very quiet prisoner up to the present.

FOUR LUNATICS.-The Fulton county jail has been converted into a lunatic asy-lum. There are now four lunatics inside its walls and they have been there for some time. Two of them are women, Olivia Wood and Jane Gates. The former is ex-tremely violent and is kept in a darkened dungeon in the basement of the jail. Jane Gates is the negress who shot the negro man out of the tree because she suspected im of conjuring her babe to death. A fifth unatic, Amanda Coursey, was sent to the state lunatic asylum yesterday.

THE EXPOSITION GRADING .- Contractor Redmond is pushing the grading at the exposition grounds. The work of clearing away the trees and shrubbery is well under way. A larger force of men will be put to work in a few days.

GONE WEST .- Mr. E. Rich, of the wellknown firm of M. Rich & Bros., left yesterday on a business trip through the north and west. Mr. Rich will be away about one month, and will visit Chicago, Cincinnati, Grand Rapids and New York before he returns. Being a director of Atlanta's great exposition, he will miss no opportunity to talk of it.

HE HIT THE PIPE.-Warren Jones, negro, has been employed as porter by W. J. Bagby, a tobacco dealer on Decatur street. About \$25 worth of pipes were stolen, and Detective Bedford arrested Jones for the theft. Judge Landrum tried the case yesterday and sent Jones to jail in default of a one-hundred-dollar bond.

THERE IS A DIFFERENCE.—The friends of Mr. Heflin object strongly to his name being drawn into the question of a pardon for Glenn McCord. "There is no real connection at all between the cases," said Mr. Heflin, talking of the matter last "The two cases stand separate and distinct, though we were indicaed to-gether. I was honorably discharged by the courts; and, whole I don't want to get into any controversy, I don't think it right that I should be brought in and made to bear the burden in order that sympathy may be created for McCord."

THE PHARMACY RECEIVERSHIP .-The application for a receiver for the Lee Pharmacy Company mentioned in yes-terday's Constitution was made by Mr. C. L. Pettigrew. As announced, Judge Clark signed an order granting a temporary restraining order and appointed H. M. Lee temporary receiver, Mr. Pettigrew came to Atlanta about a year ago from North Carolina and is one of Atlanta's most popular attorneys.

BAYS IT WAS A MISTAKE .- Mr. D. A. SAYS IT WAS A MISTAKE.—Mr. D. A. Perkins called on The Constitution yesterday to say that the report that he had broken up a service out at a church near the exposition grounds was incorrect. "I am a peaceable man," said he, "and did not conduct myself as reported. I admit that I was tight, but I was not drunk and certainly not riotous. As for disturbing the preacher, I did not do it. Of course, I regret very much that there should have been any trouble about the matter at all."

AN EVANGELIST FROM WALES-Glen AN EVANGELIST FROM WALES—Glen McWilliams, the eloquent young evangelist, who is a native of Wales, will preach at Austell tomborrow morning and afternoon. He will preach in the Christian church. Dr. McWilliams is one of the most gifted young ministers in the south, and possesses great powers as an orator, singer and humorist. He is from Wales, but he has a host of friends in Georgia who are proud of his great success. His subject for tomorrow morning will be, "Did Christ Rise from the Dead?" Afternoon, "Practical Work for God and Humanity."

TEN GO TO THE MINES.—Transfer Guard Gus Starnes carried reinforcements to the extent of ten men to the convict camps at Dade City yesterday. The ten convicts were from Macon, and the highest individual sentence was ten years. It was a rough, uninteresting crowd of criminals.

IT LEAVES GEORGIA.—The Home Insurance Company, of New Orleans, has abandoned Georgia. Notice has been given by President Sefton that there will be a final winding up of its Georgia offices on September 3d. On that date the company will withdraw from the Georgia state treasury \$25,000 of its bonds, which forms its security.

MISS DRESSLER HAS MARRIED.-The MISS DRESSLER HAS MARRIED.—The announcement that Marie Dressler is to return to the Edgewood will be received with pleasure. She was a great favorite in Atlanta last year. At that time she was heart whole and fancy free, but a few weeks ago she was wedded to Mr. George Hopper, a popular member of her profession, and it will not be as Miss Dressler, but as Mrs. Hopper that she will appear in Atlanta.

PREVENTED BY THE STRIKE,—A number of delegates who expected to attend the convention of the Christian Endeavor Society at Cleveland, O., were prevented from making the trip on account of the labor agriations in Chicago. It is customary for Atlanta to send a large delegation to this convention and several would have made the trip if there had been no trouble on the railroads.

HE IS IMPROVING.—Mr. L. Steinau, who has been confined to his home for more than a week on account of a painful surgical operation, is improving and may be able to leave his home within the next few days.

BICYCLE RECOVERED.—The boy's bicycle stolen from the residence at 428 White-hall street was recovered yesterday. It was found under the East Tennessee, Virginia and Georgia railroad bridge by a small white boy and turned over to Officer Lanford. It was thrown from the bridge by the thief and badly demolished.

STORE BURGLARIZED.—The store of E. P. Wright, at 441 Marietta street, was broken open between midnight and day yesterday morning, and the money drawer was rifled of \$22.67. The burglary has been reported at police headquarters.

CLERK MYERS BACK.—Clerk Frank Myers, sunburned and jolly, is back from the sheriffs' and clerks' convention, which was in session at Brunswick this week for two days. Colonel Myers says that he enjoyed himself hugely, and passed a portion of his time interpreting the murmurings of the frantic ocean billows, termed in common parlance, "wild sea waves." GRAIN MORE PLENTIFUL.—Since the railroads have been moving freight for the past few days, carloads of oats and corn have been arriving daily. Consequently, the prices are somewhat easier. On the other hand, the receipts of meions and fruit have been light, and prices are somewhat firmer than they have been.

Many freight trains were moved out and sept on their way after a long delay There was no holding up of trains in this section and Atlanta was perfectly free from the strike, so far as the trainmer and employes were concerned, but the way the strike injured the Atlants lines was

THE NEW YORK MEETING. Railway Men Believe the Association Contract Will Be Renewed.

Next Tuesday is the day for the post-poned meeting of the Southern Railway and Steamship Association.

It is a postponed session of the regular annual meeting of the association—the meeting at which the new officers are to be elected and at which the agreement is to be entered by the roads composing the association. It is known that the meeting held for this preprior some time ago adjourned for this purpose some time ago adjourned until the 17th of July for the purpose of studying the plans for the new agreen Many of the articles of agreement have already been passed by the association and the changes are very slight, the term

remaining about the same as they have been all along. But the matter will be resumed by the members of the association at the adjourned meeting next Tuesday and the agreement will be completely made out and settled

All of the rumors to the effect that the Louisville and Nashville would not be willing to enter the association for another term and that the association for this reason would be divided as to make reorganization impossible, seem to have played entirely out just as The Constitution pre dicted they would. Everybody knows tha the association is going to hold together now and that it will be stricter than ever

in some particulars on the roads. The railroads of the entire country re alize that this is no time to be scatter-ing out and raising war upon each other. They realize that if a railway association was ever needed surely it is needed right now in the south, the west and the east

Such a blow has been given the railway interests recently that it is hard sailing for the best of the lines. The Southern Rail way and Steamship Association has done great service to the railroads of the south since its inauguration several years ago. It has a great sphere just at this

The roads would never have consented to abandoning it.

As to the new officers, there seems to be no feeling of doubt among any of the mem-

a New Charter. Savannah, Ga., July 13.—(Special.)—Re-ceiver Comer left for New York today to at-tend the Southern Railway and Steamship Association meeting and to confer with the parties interested with regard to the Central's reorganization plan. He says he has had no further advices with regard to the plan, but hopes to see it ready to be an-nounced within a week. He says there has been a small element of opposition to por-tions of it, but he believes this will all be overcome and satisfactorily arranged. One fact not noticed so far is that after it is old the Central will have to obtain a nev charter, which will make it subject to state and county taxation, from which at present it is exempt except on its net into about \$50,000 annually.

THE RAILWAY LIST CLOSES AT THE TOZ.

Fears Are Entertained That the Liquidation of August Cannot Be Effected Without a Further Decline.

NEW YORK, July 18.—Reports that President Cleveland would appoint two commissioners to assist Labor Commissioner Wright in an investigation of the causes of the recent strike, as well as to suggest remadies, led to a firm opening in the stock market. The fact that the railroads were accepted as conclusive evidence that the strike had ended, contributed not a little to the firmness, and belated shorts came in the market as buyers. Subsequently it was announced from Chicago that the American Railway Union was willing to call their strike off, provided the railway managers would agree to take back the memagers would agree to take back the members of the union that quit work in order to assist the Pullman employes, and this assisted the upward movement in the aftermoon trading. The passing of Debs, however, did not lead to any extensive buying the property of the reason that securities to cover for the reason that street came to the opinion at an early iod of the strike that there was no ney in selling stocks on the latest labor constration. Prices for railroad stocks wed up anywhere from ¼ to 1 per cent, I closed at about the top figures of the and closed at about the top ngures or the day and week. The issues most conspicuous in the upward movement were the Grangers, Louisville and Nashville, Western Union and Missouri Pacific. Pullman Palace rose to 159 bid on the introduction by Senator Davis of an amendment placing form room and sleeping cars under the Senator Davis of an amendment placing drawing room and sleeping cars under the operation of the interstate commerce law. In the Industrials, Sugar, Chicago Gas, Lead and Tobacco were strong and in request, while Whisky was as heavy, breaking from 24 to 21%, with a subsequent recovery to 22%. The decline was due to Washington resorts that the law on dis-Washington reports that one tax on dis-tillers would be reduced from \$1.10 to \$1 per gallon, and the bonded period from ight to five years. It was argued that the eduction would have a bad effect, as the company has recently taken large quantities of goods out of bond, basing its ac-tion on the senate bill. Sugar moved up 2 to 99% on the advance of 4c in refined and the bellef that the sugar schedule will receive the approval of the conference committee. The collapse of the strike in Chicago stiffened Chicago Gas, which rose from 74½ to 76%. Lead and Tobacco advanced fractionally. United States Leather, Cordage and General Electric were firm. Closing Stock Review.

The stock market was dull in the closing fur, but generally firm, with the exception of Whisky, which was pressed for both accounts. It was reported that the joint rift conference committee had agreed to look the house tax of \$1 a gallon, but the ration of the bonded period had not been stied. This stimulated a selling movement in the stock for western account in hich the Cammack brokers took part. At as decline the traders covered.

The raliroad list was fairly firm, but with the activity, as operators preferred to wait the result of negotiations for declarge of the Pullman boycott.

Atwood Violet & Co.'s Cotton Letter. By Private Wire to J. C. Knox, Manager. NEW YORK, July 13.—This market showed considerable steadiness until about 1 o'clock, when, upon sales of August, there was a decine carrying prices down 6 points below last night due to some transferring of August to the late months. There was a bale of new cotton today at Galveston. The feeling seems to be that this was a forerunner of more new cotton in the near future, and some selling was doubtless brought about by this fear. Liverpool opened and closed at about yesterday's prices. We see now what has been apparent for some time, and that is that Liverpool rules the situation, and unless they improve we cannot advance. Crop accounts continue very good and the general appearance of the market is not a favorable one. The stock of American on hand today at Liverpool is 1,325,000 bales against 1,321,000 last year, but there will doubtless be until October 1st a weekly decrease in the supply at that port. Should the American or foreign spinner come into the market for new cotton it would, of course, give considerable steadiness not only to spots but to futures. It will be thirty days or more, however, before it will be known what their purposes may be. Port receipts today about 800 bales against 1,700 bales last year.

ew York...

.. ...5,852,113 NEW YORK, July 12.—Summary Hubbard, Price & Co.'s cotton letter: The continuance of the good crop accounts which are being received from the cotton belt had the effect of causing a slow liquidation of August holdings in this market, and under these offerings the market has declined some 4 to 5 points from yesterday's prices. A new bale of cotton is reported in Texas today as having arrived at Galveston from Cuero, and telegrams from New Orleans are to the effect that other shipments may be expected before the end of next week, but this does not go very far toward supplying that cargo of new cotton which has been so freely offered in Europe. There is decidedly a better tone in business circles as a result of the suppression of the lawlessness in Chicago and throughout the west, but as yet no revival in speculative circles is to be noted, and it will require a different character of reports from the south than those now coming to hand to induce large purchases of cotton. In Liverpool the der and is hardly sufficient to support prices and no encouragement at the monent can be looked for under present conditions from that market. During the afterneon the market sold at the lowest price of the day and closes quiet and steady at these quotations. Hubbard, Price & Co.'s Cotton Circular.

Riordan & Co.'s Cotton Letter. NEW YORK, July 13.—(Special.)—Liverpool again failed to respond under any
spirit to our closing rally of yesterday, and
our market opened 2 points lower, and then
declined 4 points more, closing quiet and
steady with 7.92 bid for August. The cotton growers, as a rule, are prone to grumble and the fact that nobody hears a word of complaint now from any quarter of the cotton belt is taken as pretty conclusive evidence that the crop outlook is a magnificent one. There was a good deal of short covering today, but neither this buying nor the timidity of many operators abou. selling could sustain prices in the face of the superb crop outlook. There seems absolutely no buying for investment, the only support to the market being profit taking by the shorts. The feature of today's trading was the great fear that the liquidation of August cannot be effected without a considerable further decline.

THE CHICAGO MARKET

CHICAGO, July 13.—Local professionals hammered wheat today, and although their sales were not prompt in their effect on prices, still, after the big lines had passed from one to another of the gapers, each taking his fractional loss and passing it along, a net loss of over ½c in values was made. One plunger sold over a million bushels openly at the start, and if he bought it back at the bottom, made a neat profit. The outside trade was prominently not in the market. At opening there was some gain over yesterday's close. September wheat opened 58 to 58½c, sold between 58 and 58½c, closing at 58c—½c under yesterday.

day.

Corn—The situation at home and abroad in Corn—The situation at home and abroad in this market helped pricess materially during the morning hours of trading, but when the slump in wheat came there was not sufficient support to prices to prevent a sympathetic decline. September corn opened at 43%c to 48c; sold between 43%c and 42%c, closing at 42%c—%c under yesterday. Offerings of cash corn were moderately increased today. The demand was good. Prices were firm early, but later eased off with the futures.

ed today. The demand was good. Prices were firm early, but later eased off with the futures.

Oats—The small stocks of contract stuff in store and the inability to use the fresh receipts on deliverles, were the subjects of gossip in the rit. Thefe was a firm tone to prices on the talk in sympathy with the other grains. There was a decline later, when wheat and corn began to weaken. September sold between 29% and 29% 299% (2004) and 29% (2004) and 2004) and

By Private Wire to J. C. Knox, Manager.
CHICAGO, July 13.—Early in the day the wheat market was strong, prices showing an advance of 'ye over the close of yesterday on continued drought reports from the crop sections and dry weather map today, coupled with firmer cables from the continent, which reported unsettling weather and poor crop prospects. In the absence of a demand and prospects of more liberal receipts in the near future, the settlement of the strike now being assured, the market soon broke, considerable selling being indulged in by professionals, one party having been reported as selling 1,000,000 bushels of September around 68½c. Outside markets were barely steady and foreigners manifested little interest on either side. New York was reported as selling on the expectation of the early movement of new wheat. During the last half hour of the session the market was exceedingly weak, influenced by the large receipts of new wheat in St. Louis, the closing being 58c.

A report of poor Russian and Danubian crop prospects, together with dry weather out west, is responsible for the early strength in corn, but the market soon became weak, however, on lack of demand, liberal offerings and the prospect of increased receipts in the near future. The market showed a loss of ½0%c at the close.

Cash oats were dull and depressed. There was little demand, and on liberal offerings prices declined %0%c from the opening. Speculative futures were firm though not very active.

The demand for hog products for immediate shipment south noted a few days ago appears to have all disappeared. The other points received no bids. The condition of trade is duil and depressed. Lamson Bros. & Co.'s Grain Letter.

Chiengo Gossip. By private wire to J. C. Knox, manager— Opening Cables—Cargoes off coast: Wheat steady. On passage and for shipment: Wheat firm, but inactive, Corn improving. Mark Lane: English wheat and corn firm; English and American flour firmly held. French country markets quiet. English weather showery. Liverpool: Wheat firmly

Wheat opened here firm and 1/2c up. Cables were lower, but the weather abroad is showery. The strength seems to be on the general short attitude of the smaller professionals. The northwesterh people report some injury from high temperatures, but these reports are private and not official. Corn helped wheat some.

GEORGIA, FULTON COUNTY.—To Hon. Allen D. Candler, Secjetary of State for the State of Georgia:

Section I. The petition of John D. Turner, Joseph Hirsch, George C. Looney, Charles R. King and Green M. Jones, all of said county and state, shows that they desire to be incorporated by and under the name of the Golden Union, a secret order of fraterial life insurance on the level rate assessment plan, under the laws of the state of Georgia.

Sec. 2. The petitioners above named, or a rajority of them, are to be appointed commissioners, and the said commissioners may call a meeting of the incorporators and associates, and at such meeting the incorporators may be organized, and the officers elected, provided a majority of them shall be present or represented. In the event less than a majority shall attend, said commissioners may adjourn from time to time until a sufficient attendance can be had, when said organization may be completed. Sec. 3. The business of said order shall be conducted by a board of trustees, consisting of not less than five and a majority of whom shall constitute a quorum for the transaction of any business. The said trustees are to be elected for an indefinite time, and shall have power to fill all vacancies and to elect all the officers in their own body.

Sec. 4. The officers of said order shall body.
Sec. 4. The officers of said order shall consist of a president, two vice presidents, secretary and treasurer and general counselor and such other officers as the board of tustees shall deem necessary; but the same persons may hold one or more offices, and the board of trustees may, at any time, abolish any offices, or create additional ones if such is deemed proper. The said trustees may require all of said officers to give bond in such amounts as they may fix for the faithful performance of their duties.

fix for the faithful performance of their duties.

Sec. 5. The petitioners desire the right to loan their surplus cash, or that of others, for any length of time agreed upon at a rate not greater than 8 per cent per annum on real estate, or other acceptable security, and may include in the note, or the obligation thereof, the interest for the whole time, and collect said principal and interest in monthly, bimonthly, quarterly or semi-annual installments, or othwise, as may be agreed upon without any rebate of interest. And petitioners further desire in the name of the Golden Union to rent, buy, sell and convey property of all kinds, both real and personal, and to use and be sued, and to do any and all kinds of business, which may be transacted by individuals, that would not be contrary to the laws of the state of Georgia.

Sec. 6. The petitioners further show that the order which is to be organized, being a mutual or co-operative company, the same will not have capital stock, or shares of Sec. 6. The petitioners further show that the order which is to be organized, being a mutual or co-operative company, the same will not have capital stock, or shares of stock; and they des're that power be granted to them to adopt such constitutions and by-laws as they may deem proper, which are not in conflict with the laws of the state of Georgia, for the guidance and government of all the subordinate lodges.

Sec. 7. Petitioners further show that they in good faith intend to go forward, withcut delay, to organize said order as soon as this application can be advertised, and they further show that they have given thirty days' notice of their intention to apply for said charter, by publication or this petition in The Atlanta. Constitution, a newspaper published in the city of Atlanta, in said county, and that the business of said order is to be transacted in the city of Atlanta, in said county.

Sec. 8. Petitioners desire to be incorporated for the space of twenty years, with the privilege of renewal at the expiration of that time. And your petitioners will ever pray.

actor Edwin Harcourt Turns Out to Be A. M. Yan Hauften's Desperate Attempt to Suicide.

WIFE TELLS THE STORY. ALSO TURNED ON THE GAS.

He Made a Deliberate Attempt to Kill Him-celf and Is Not Yet Out of Danger. The Reason He Gives.

A determined effort at suicide was made by A. M. Van Hauften, at the boarding house on the corner of Church and Fairlie streets, yesterday morning.

Mr. Van Hauften begun preparations for his seir-destruction about 10 o'clock Thursday night. At that time he took his canary bird from its cage, and, going to a window, he set the songster free. The bird fiew into the front yard and little Rosa Strange, the daughter of one of the boarders, caught it. She took it upstairs, and, knocking on the deor of Mr. Van Hsuften's room, told him she had caught his canary. He replied that she was mistaken, as the bird was in its cage.

she had caught his canary. He replied that she was mistaken, as the bird was in its cage.

Mf. Van Hauften then locked his door, closed the windows, stuffed a shawl into the chimney and sat down and wrote the following note:

"Goodby, my dear child. I cannot stand it any longer. Try to be better than I have been, and I hope the Lord will have mercy on my soul and forgive my sins. The money for the burying will come from Holland. Have me buried as cheaply as possible. Your husband,

"A. M. VAN HAUFTEN."

The note was addressed to Mrs. A. M. Van Hauften, care Southern hotel, Chattanooga, Tenn.

He then took three razors from his bureau, and selecting the keenest one, he went overto the bed. Before using the razor, however, he placed a bucket beside the bed. He then placed himself on the floor, with his head bearing against the side of the bed in such a position that the blood would run into the jar, instead of solling the carpet.

The desperate man then took the razor and attempted to end his life by cutting his throat. But the razor, being a small, slight one, broke when it struck the "Adam's apple," and a piece of the steel blade, about two inches long, was left in the wound. He tried the two remaining razors, and selecting the sharpest one, he turned on both jets of gas, and returning to the bedside, made another fearful gash in his throat. He then lay passive in that position until he was discovered, about 8 o'clock yesterday morning.

At about the hour named, one of the bell how discovered, about 8 o'clock yesterday morning.

discovered, about 8 o'clock yesterday morning.

At about the hour named, one of the bell boys discovered a strong smell of escaping gas coming from his room. The door was burst open, and a ghastly spectacle was presented.

Mr. Van Hauften's body was reclining against the bed. His throat showed two awful gashes, and just beside him was the jar containing his blood. Drs. Grandy and Bizzell were summoned. Restoratives were applied and six stitches were taken in his throat.

A Constitution reporter saw Mr. Van Hauften yesterday afternoon, and his talk

A Constitution reporter saw Mr. Van Hauften yesterday afternoon, and his talk was wild and rambling.

"How far is it to the hospital?" he asked. He was told and then asked, "Will you take me there tonight sure?"

"Ah." said Mr. Van Hauften, "you want to know my mission, don't you?" Being answered in the affirmative, he said:

"I was sent to warn the people of Atlanta. They are hiving too high. The women are wearing too many fine clothes and the men are spending too much money. Atlanta will yet meet the fate of Sodom. A poor man has ro chance in this city. It does not affect me, however, as I have an inheriaffect me, however, as I have an inheritance from Holland that is sufficient to live

He will be absent from the state and from the United States, the guest of the people of Toronto, Canada. He leaves tomorrow night or Monday morning for Toronto, and will be away about ten days.

His mission is interesting and signifi-cant. He goes all the way to Canada to deliver an address to young men-to point out to them the moral qualities that are best to cultivate; to hold before them a high ideal of character and of conduct and to inspire them with better ambitions. He will be listened to by a larger audience than any that ever heard him speak. Fully 7,500 people will be delegates to the convention, which he is to address, and as many of them as can will hear him. His fame as an earnest and sincere speaker, who addresses himself to the hearts and

minds of young men, has spread even to Canada. He goes to attend the annual convention of the International Young People's Baptist Union. This convention will be composed: of delegates from every state in the union and from Canada—all young people zealous in the work of propagating Christian senti-

Atlanta will send quite a number of delegates. They leave Monday and will go over the Seaboard Air-Line, the East Tennessee, and the Richmond and Daville. They will reach Toronto Wednesday night. Thursday night Governor Northen will de-

liver his address to young men, of whom there will be a small army in the conven-tion. He was invited to make this address by Dr. Frank Wilkins, of Chicago, editor of The Baptist Union. Knowing the great interest that Governor Northen has always felt in young men, Dr. Wilkins suggested the subject upon which the address is to be made. Governor Northen gladly complied with the suggestion by at once writing to Dr. Wilkins to say that he would speak upon that tonic.

AN EX-POSTMASTER

Arrested by Deputy Marshel Scott You Leap, Yesterday Afternoon.

CRARGED WITH USING OLD STAMPS.

He Was Located at Morrison, Colorado. For Two or Three Days He Had Been a Guest of the Surgical Institute Here.

An elderly man, apparently sixty-five years of age, with a long gray beard and a pallid cast of countenance denoting the invalid, was placed under arrest yesterday afternoon, charged with having defrauded the United States government.

It is charged against the old man that he was in the habit of using postage stamps more times than Uncle Sam allows. Errastus

Adams is the name of the gray-haired pris-oner, who is now an inmate of Fulton coun-A few months ago he filled the office of

postmaster at Morrison, Cel., a small west-ern town. He stood well in the community and was highly respected by his fellow-cit-izens. According to the warrant for his ar-rest, however, it appears that he was rather crooked in his business or at least was not rest, however, it appears that he was rather crooked in his business or at least was not as systematic and thorough as the law required. This led to a careful investigation of his books and the eye of scrutiny was brought to bear upon his general conduct. The result of this examination was a warrant for his arrest and a preliminary hearing, which went against nim. He was afterwards indicted by the grand jury and gave bond for his appearance.

He did not appear, however, and the bond was forfeited. His property, in the meantime, had been given to his sureties for the purpose of indemnifying them against loss. The policy of the government, however, is to punish the offender, and for this reason the efficials were not willing for the postmaster by giving up his property, to escape the clutches of the law.

It was ascertained that the postmaster had established himself in this part of the world and efforts were made to locate his exact whereabouts. The United States marshal, Mr. Sam C. Dunlap, was notified of the situation and a search was immediately instituted for the ex-postmaster. He was found at the National Surgical institute in this city, where he had been a guest for several days, and where he was undergoing a process of treatment for his general conduct.

There was no effort on his part to escape detection. His full name was signed on the register, and his manner, when approached by the deputy marshal, was that of a quiet and iaw-abiding citizen. None of the charges against him were denied. There was no effort to resist the arresting officer. He was taken to the jail for safe keeping and will remain incarcerated until this afternoon, when Deputies Mitchell and Scott will leave with their prisoner for Denver, Col.

LOSS BY FIRE

At 'The Ladies' Bazaar Company, 72 Promptly at 2 o'clock on yesterday, after a thorough examination, the adjusters of the different fire insurance companies made a satisfactory settlement with the above firm. The loss at first was thought to be only nominal, but upon examination it was found that most of the stock was damaged by smoke, but part by fire and water.

However, the companies saw that the firm wanted only what was due them, and a speedy and satisfactory settlement was made. This speaks well for both the firm and insurance companies.

On looking through the different stocks you would find a stack of dress goods seented by smoke, a counter of domestics saturated with water, a shelf of muslin underwear slightly burned, and, in fact, nearly the entire stock of select goods more or less damaged. Whitehall Street.

For Representative. The friends of CAPTAIN EVAN P. HOW-ELL announce him as a candidate for the legislature from Fulton county, subject to the primary of the 18th instant.

I hereby announce myself as a candidate to represent Fulton county in the next house of representatives of Georgia, subject to the democratic primary of July 18th. CHARLES I. BRANAN.

Mr. David M. Vining hereby announces himself a candidate for representative from Fulton county, subject to the democratic primary of July 18th, and the recommendations of the executive committee.

I am a candidate for re-election to the office of tax receiver of Fulton county, subject to the action of the primary to be held July 18, 1894. Being now in the midst of my work completing the digests for 1894, it will be utterly impossible for me to make a thorough canvass of the county, therefore will appreciate any assistance given me by my friends.

T. M. ARMISTEAD.

I hereby announce myself a candidate for tax receiver of Fulton county, assisted by John L. Gatins, present assistant tax receiver, subject to democratic primary.

A. J. McBRIDE.

For Clerk Superior Court.

I hereby announce as a candidate to succeed myself as clerk of the superior court of Fulton county, subject to the democratic primary of July 18th. The support of my friends throughout the county will be appreciated.

HENRY G. TANNER. For Coroner.

I am a candidate for coroner of Fuiton county, subject to primary, July 18th.

W. L. EZZARD.

I hereby most respectfully announce myself a candidate for the office of coroner of Fulton county, subject to the primary to be held on the 18th of this month. Thanking the people for the trust they have heretofore given me, and assuring then, if again elected, I will endeavor to serve them with the same fidelty as I have in the past. I am very respectfully yours,

I respectfully announce myself as a cap-didate for coroner of Fulton county, sub-ject to the democratic nomination, July 18th. I pledge myself, if nominated, to give that attention to the office it required.

I most respectfully announce myself a candidate for coroner. I have been in the undertaker business for fifteen years. My coffins and caskets are all gone—sold out—and if all those who owe for them will vote for me I am certain to be elected. Respectfully, FRANK X. BLILEY, july 5-till- 18

For County Commissioner. I hereby announce myself a candidate for county commissioner of Fulton county subject to the action of the democratic pri-mary of July 18th.

By the governor:
W. H. HARRISON,
Secretary Executive Department. State Property to Be Sold. Colonel W. A. Wimbish, special attorney of the state in matters pertaining to the state road, has filed an important recom-

nendation with the governor.

He has submitted to the governo a list of property belonging to the Western and Atlantic, which properties, apparently being not necessary for the use of said railroad, he recommends be sold in conformity with the terms of the resolution of the general assembly providing therefor. It is provided in the resolution that the consent of the lease company be obtained, and the special attorney is instructed to

communicate with the lease company at The property is scheduled in Colonel Wimbish's report and includes: Two acres just outside the city of At-lanta, near the two-mile post, with a small

dwelling on it. Part of the original depot lot at Marietta. Two acres at Harris's station, formerly used for station purposes, but now abandoned. There is a peculiar condition attached to this property. It is held upon condition that no grocery, house of merchandise or dwelling be erected on it, except with the consent of the owner of lot No. 246 of which it is a part. That lot is No. 246, of which it is a part. That lot is held by W. R. Chandler, and Colonel Wim-bish recommends its sale to him by private sale, as nobody else would bid on it with the conditions attached.

Town lot at Kennesaw, nearly half an acre. It is not used and the state has am-

House and lot at Adairsville, formerly oc-

supled as agents' house, now occupied by tenant.

Town lot at Calhoun, same as above. Land lots 166 and 167 in Gordon county, containing 160 acres each, Land lots 887 and 949, forty acres each, in Cobb county, have been subjet for agricul-tural purposes, and Colonel Wimbish rec-ommends that they be not sold until the expiration of the leases to the present ten

GEORGIA, FULPON COUNTY—By virtue of authority in me vested as executor of the last will and testament of Captain John G. Reynolds, deceased, of said county, with authority by said will to sell "at either private or public sale," on the first Tuesday in August, 1894, on August 7th, 1894, next, before the courthouse door in said county, at the place and during the legal hours of public sale, I shall offer and expose to sale at public outery, to the highest and best bidder—amount of bid payable one-third cash on said day of sale and balance in two installments with interest thereon at the rate of 8 per cent per annum from said date until said deferred payments are finally paid and respectively due, one deferred installment payment in four months and the other in eight months after said date, but payable at any time before due with interest to date of payment, as aforesaid, and I will, upon terms aforesaid, sell all that tract or parcel of land, 90.8x223 feet, fronting on Ponce de Leon avenue, being the western part of that bought, by said John G. Reynolds from Peters Land Company by deed dated November 29, 1890, and recorded in Fulton county deed book W-3, page 536, and more particularly described as follows, to-wit: Part of land lot forty-nine (9), commencing on the north side of Ponce de Leon avenue, seventy and seven-tenths (70.7-10) feet west of the northwest corner of Piedmont and Ponce de Leon avenues, and running thence north along the line of the lot sold to Mrs. Ada Alexander two hundred and ten (210) feet, thence west on a line parallel with Third street ninety (90) feet, thence south on a line parallel with Piedmont avenue two hundred and twenty-three (223) feet to Ponce de Leon avenue, thence east along the north line of Ponce de Leon avenue ninety and eight-tenths (90.8-10) feet to the place of beginning, being now in ward six in the city of Atlanta.

Said property is offered for sale to raise money to be paid on claims of the widow of said deceased and upon other debts of said estate.

JUN 12, 1894.

As the Executor of the Estate of Captain John G. Reynolds,

I desire also to announce that said estate has much valuable city and suburban real estate—some improved with valuable buildings and residences thereon—to be disposed of "at either private or public sale," according to the duly authorized discretion of the executor, and I will sell any of same for reasonably fair price, at private sale, giving perfect and absolute titles, else the same will in future be offered by me at public outcry in the administration of said estate.

Parties desiring to purchase will be af-

Alaska Refrigerators

Are the Best in the World!

"THE REASON WHY."

The principal causes of decay in meats and fruits are DAMPNESS and VARING TEMPERATURE.

The qualities sought for in a Refrigerator are PRESERVATION OF PRISHABLE FOOD and an economi-

PRRISHABLE FOOD and an economical use of ice.

The "Alaska" is constructed upon at ictly scientific principles, by which LOW TEMPERATURE and ABSOLUTE DWYNESS OF AIR are naturally and inevitably obtained.

The "Alaska" possesses a provision chamber FREE FROM ODOR AND I'ROM DAMPNESS. These results can be obtained only by a PERFECT CIRCULATION of the fir in the Refrigerator, and its CONDENSATION IN THE ICE CHAMBER.

The "Alaska" keeps the air in contact with the ice longer than any other Refrigerator, condenses all the moisture before the air returns to the provision chamber, and, in utilizing all the cold air, PRODUCES BETTER RESULTS WITH LESS ICE than any other make.

The "Alaska" is a perfect DRY-AIR REFRIGERATOR, and the best one ever constructed, sold only by
